

## Steps for Obtaining a Well Permit

1. Well Driller **must** apply for the well permit: (Permit can be found on our web page)
  - The Well Driller is required to provide a copy of their state Well Drillers Certificate.
  - Well Driller must provide a plan that shows the distances from any septic systems on the subject property and abutting properties. Plan should also indicate the distances from property lines.
  - After a copy of the well report from a certified laboratory and proof of state registration of the well location is received by the Board of Health and site inspection is completed a septic permit can be issued.  
(Freetown BoH Regulations Chapter II, sect. 7)
