

April 20/1974

R. C. Parker and Ernest Walker met at the Assonet Cemetery on Sunday morning at 10:00 A.M. They looked over problems and discussed solutions. Make a new cover for the well and put the pump into condition. Padlock on shed locked and all screws out of bar attachment so door was open. Kids in there this week.

Decided getting the Angus bays. But will talk to their father about their doing it.

But and Mr. Walker went over available empty lots.

Jo Simmon, highway surveyor, will come in here and fix roads. Decided what roads to fix up. - Mr. Walker thinks that Mr. Jo Simmon will start to take over some of these so it is our opinion that these are town roads & should be cared for by the town.

Tim's was spend getting two men to coincide H.C.P. working on set of cross reference cards to be arranged by Section & lot numerically.

But will see about a 3x7 door of matched boards, a new heap & padlock for shed. Also a 4' cover for well, a new pump and pipe with foot valve.

Padlock put on tomb. Key to But, Harris, (only)

Ernest Walker, + one to go in ~~tall~~ hall - to be hung
on board at communications center.

Went down to new empty section where Rudy Cain
is buried. Rudy is in a 10'X12' grave lot for 2 people
Can measure if two or four grave lots

Checked tombs - Lock will not fit.

New Lock - fits 1 Key E. Walker 1 Key back of door
John Hall.
