

Massachusetts Bay  
Transportation Authority

**Join the South Coast Rail team for a  
*Safety First Presentation*  
hosted by the Assonet Bay Shores Association**

You are invited to join the South Coast Rail (SCR) team for a project update and ***Safety First*** presentation hosted by the Assonet Bay Shores Association. Please join us on **Thursday, April 4, at 2:00 PM** at the United Church of Assonet Fellowship Hall, located at [9 North Main Street, Assonet, MA](#).

***Safety First*** is a program that educates people on how to stay safe around train tracks. Our goal is to bring an understanding of safety rules to all residents in every Southeastern Massachusetts city and town. Through our presentation, materials, and conversations, you'll learn safety basics, including:

- Staying clear of the railroad right-of-way. It is illegal and very dangerous to trespass onto it.
- Only crossing tracks in designated locations.
- Obeying all warning signs and signals
- Understanding that it is never safe to be near or on railroad tracks.
