

Freetown Soil Conservation Board

Minutes of Site Inspections

Wednesday, May 20, 2015

At 9:00 a.m., the clerk was present at 9 Copicut Road along with Ken Rezendes, who would be speaking on behalf of both the Rezendes and Borges permits as Peter Borges was not available. No board members were present. After several phone calls to board members and/or the Town Hall, it was determined that no board members would be attending the inspections. Mr. Rezendes offered to show the properties to the clerk anyhow, and although that offer was appreciated, the clerk stated he was not versed in what the Soil Board does and would not know what to look for.

This is a True Record by me.
